1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS

Hudson Resources Inc. (the "Company") is a publicly listed company incorporated in British Columbia on March 7, 2000. The Company's shares are listed on the TSX Venture Exchange under the symbol "HUD". The Company was incorporated on March 7, 2000 under the Company Act of the Province of British Columbia.

The Company's head office and the registered records office are located at 1460 - 1066 West Hastings Street, Vancouver, BC, Canada, V6E 3X1.

The Company is in the business of acquiring, exploring and evaluating resource properties, and either joint venturing or developing these properties further or disposing of them when the evaluation is completed. At September 30, 2016, the Company was in the exploration stage and had interests in properties located in Greenland.

On April 13, 2015, the Company setup a subsidiary, Hudson Greenland A/S, to conduct exploration and evaluation of mineral resources in Greenland.

As at September 30, 2016, the Company had not yet achieved profitable operations, had a deficit of \$51,814,137, and expects to incur further losses in the development of its business, all of which indicates material uncertainties which may cast significant doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability generate future profitable operations and / or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. These financial statements do not give the effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Realization values may be substantially different from carrying values as shown.

The condensed consolidated interim financial statements of the Company for the six months ended September 30, 2016 were reviewed by the Audit Committee and approved and authorized by the Board of Directors on November XX, 2016.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

Statement of compliance to International Financial Reporting Standards

These condensed consolidated interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed consolidated interim financial statements comply with International Accounting Standard 34, Interim Financial Reporting ("IAS 34").

Basis of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its subsidiaries. Intercompany balances and transactions, and any unrealized income and expenses arising from intercompany transactions, are eliminated in preparing the condensed interim consolidated financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

Basis of presentation

This condensed consolidated interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended March 31, 2016. However, this condensed consolidated interim financial report provides selected significant disclosures that are required in the annual financial statements under IFRS.

These condensed consolidated interim financial statements follow the same accounting policies and methods of application as the annual audited financial statements for the year ended March 31, 2016, with the exception of the following new accounting standards and amendments which the Company adopted and are effective for the Company's interim and annual financial statements commencing April 1, 2016.

- IAS 1: amendments to an existing standard for presentation of financial statements, effective for annual periods beginning on or after January 1, 2016.
- IFRS 14: Regulatory deferral accounts, effective for annual periods beginning on or after January 1, 2016.

Functional and presentation currency

These condensed consolidated interim financial statements are presented in Canadian dollars ("CAD") which is the functional currency of the Company. The functional currency of Hudson Greenland A/S is determined as the Danish Krone ("DKK").

3. NEW ACCOUNTING STANDARDS

New standards and interpretations not yet adopted

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRIC that are mandatory for accounting periods beginning on or after April 1, 2016. Updates which are not applicable or are not consequential to the Company have been excluded thereof. The following have not yet been adopted by the Company and are being evaluated to determine their impact.

• IFRS 9: New standard that replaced IAS 39 for classification and measurement, effective for annual periods beginning on or after January 1, 2018.

4. CASH AND CASH EQUIVALENTS

The Company's cash and cash equivalent are broken down as follows:

	Sep	otember 30, 2016	March 31, 2016
Cash	\$	921,882 \$	1,302,192
Cash equivalents		50,031	174,598
	\$	971,913 \$	1,476,790

As at September 30, 2016, cash equivalents consisted of a term deposit with a principal amount of \$50,031, maturing on October 7, 2016. The interest rate is 0.05%.

.

5. EQUIPMENT

The Company's equipment is broken down as follows:

During the year ended March 31, 2016, the Company purchased \$1,165,673 of field equipment by obtaining an unsecured bridge loan (note 9). The Company has pledged this field equipment as security against the counter-guarantee provided by the Bank of Greenland to the Company for the reclamation obligation (note 10).

6. **RESOURCE PROPERTIES**

The Company's resource properties are broken down as follows:

				Balance as at
		Balance as at		September 30,
	Ma	arch 31, 2016	Additions	2016
Greenland				
Sarfartoq Exploration Licences

Acquisition costs / license fees		179,005	3,643	182,648
	\$	947,678	\$ 3,643	\$ 951,321

The Company currently has two Exploration Licenses ("EL") in Greenland, the Sarfartog EL (2010/40) and the Pingasut EL (2013/01) and one exploitation license, the Naajat EL (2015/39). In 2014, Hudson was granted license renewals on the Naajat and Sarfartog EL's. Prior to that, in 2012, Hudson was granted two license renewals. The Sarfartog EL was amended to include portions of the Nalussivik, Sarfartuup Qulaa, Sarfartog Valley and Arnanganeq exploration licenses as well as annex portions of the Sarfartoq EL and add additional ground that extends the license area to the fjord. The total area was reduced from 1,351 sq. km. to approximately 687 sq. km. As a result of the application, five previous licenses will be incorporated into one new Sarfartoq EL that is focused on the rare earth project. In 2013, the license area was further reduced to 92 sq. km. This reduced the exploration burden on the area while still maintaining 100% interest in the Sarfartog Carbonatite Complex. The Naajat EL was renewed in 2013 for its industrial mineral potential for exploration years 11 and 12 and the license area was reduced from 190 sq. km. to approximately 96 sq. km. The Naajat EL includes the White Mountain Anorthosite Project ("White Mountain"). In 2014, Hudson began the process of converting the Naajat exploration license into an exploitation license. The exploitation license was granted in September 2015. In addition, Hudson applied for and was granted a non-exclusive prospecting license for the west coast of Greenland. The license allows the Company to prospect ground outside of its existing 3 licenses. In the event that Hudson wishes to apply for a future exploration license on additional areas, funds expended from the prospecting can be carried over to the new license area.

Current Resource Properties

Naajat (White Mountain) Mineral Claim (2015/39), Greenland

In September 2015, the license was converted to an exploitation license. A fee of 100,000 DKK was paid. Previously, the Company was required to maintain certain work commitments to retain the exploration license. The total work commitment for calendar 2014 was 4,259,720 DKK (approximately \$850,000). The Company must submit an annual report by April 1 of each year detailing its' activities and expenditures for approval. These work commitments for calendar 2014 have now been approved by the Greenland government. Provided the license remained unchanged in 2015, total work commitment for calendar 2015 was 8,636,960 DKK (approximately \$1,586,000). Hudson had accrued sufficient credits from previous expenditures to carry the license beyond December 31, 2015, with credits available until December 31, 2019. Hudson now has certain non-monetary commitments, including but not limited to employing Greenlandic personnel, based on establishing a mining operation as per the exploitation agreement in order to maintain the license.

6. **RESOURCE PROPERTIES (CONTINUED)**

Current Resource Properties (continued)

Sarfartoq Mineral Claim (2010/40), Greenland

The Company must submit an annual report by April 1 of each year detailing its' activities and expenditures for approval. The total work commitment for calendar 2015 was 33,528,000 DKK (approximately \$6,156,000). The work commitments for calendar 2015 have been approved by the Greenland government. In 2015, the Company's license was renewed to December 31, 2017. Subsequently, in December 2015, the Greenland government granted Hudson a 2-year exploration commitment holiday. As a result, Hudson will be able to carry accrued work commitments beyond the current December 2017 license renewal date with credits available until December 31, 2019.

Pingasut Mineral Claim (2013/01), Greenland

The Company must submit an annual report by April 1 of each year detailing its' activities and expenditures for approval. This license was granted on August 9, 2013. The Company's license expires December 31, 2018. Total work commitment for calendar 2015 was 390,940 DKK (approximately \$72,000). Hudson has accrued sufficient credits from previous expenditures to carry the license beyond December 31, 2015, with credits available until December 31, 2018.

16. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern in order to pursue the development of its resource properties and to maintain a flexible capital structure, which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes the components of shareholders' equity as well as cash and cash equivalents.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, acquire or dispose of assets, or adjust the amount of cash and cash equivalents. In order to maximize ongoing development efforts, the Company does not pay out dividends.

The Company is not subject to any externally imposed capital requirements.

The Company is meeting its objective of managing capital through its detailed review and performance of due diligence on its exploration activities, preparing cash flow analyses to ensure an adequate amount of liquidity and monthly review of financial results.

There were no changes in the Company's approach to capital management during the six months ended September 30, 2016.

17. FINANCIAL INSTRUMENTS

a) Fair value

The carrying values of cash and cash equivalents, amount receivables, deposits and accounts payable and accrued liabilities approximate their fair values due to the relatively short period to maturity of those financial instruments.

Financial instruments recorded at fair value on the statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities; Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly (i.e., as prices) or indirectly (i.e., derived from prices); and Level 3: Inputs that are not based on observable market data.

The financial instruments recorded at fair value on the statements of financial position are comprised of cash and cash equivalents which are measured using Level 1 of the fair value hierarchy.

There were no financial assets which are measured at fair value that applied Level 2 or Level 3 fair value measurements (March 31, 2016 – no Level 2 or Level 3 fair value measurements).

There were no transfers between Levels during the six months ended September 30, 2016.

b) Financial risk management

<u>Credit risk</u>

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's cash and cash equivalents and receivables are exposed to credit risk. The Company reduces its credit risk on cash and cash equivalents by placing these instruments with institutions of high credit worthiness. As at September 30, 2016, the Company's maximum exposure to credit risk is the carrying value of its financial assets.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due.

The Company maintained sufficient cash and cash equivalents at September 30, 2016 in the amount of \$971,913, in order to meet short-term business requirements. At September 30, 2016, the Company had accounts payable and accrued liabilities and note payable of \$544,325 and \$1,324,716, respectively. All accounts payable and accrued liabilities and note payable are current.

17. FINANCIAL INSTRUMENTS (CONTINUED)

b) Financial risk management (continued)

<u>Market Risk</u>

The significant market risks to which the Company is exposed are interest rate risk and currency risk.

<u>Interest Rate Risk</u>

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Included in the loss for the period in the financial statements is interest income on Canadian dollar cash and cash equivalents. As at September 30, 2016, the Company's cash is not exposed to significant interest rate risk.

Currency risk

The Company is exposed to currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. The Company has not entered into any foreign currency contracts to mitigate this risk.

The Company's cash and cash equivalents, amounts receivable, deposits and accounts payable and accrued liabilities are held in CAD, USD and DKK; therefore, USD and DKK accounts are subject to fluctuation against the Canadian dollar.

The Company had the following balances in Canadian and foreign currencies as at September 30, 2016:

	in CAD	in USD	in DKK
Cash and cash equivalents	\$ 834,524 \$	- \$	694,840
Amounts receivable	1,286	-	-
Deposits	3,259	-	4,480
Accounts payable and accrued liabilities	(326,262)	(21,139)	(962,351)
Note payable	(1,324,716)	-	-
	(811,909)	(21,139)	(263,031)
Rate to convert to \$1.00 CAD	1.000	0.7610	5.0575
Equivalent to Canadian dollars	(811,909)	(27,779)	(52,009)

Based on the above net exposures as at September 30, 2016, and assuming that all other variables remain constant, a 10% appreciation or depreciation of the CAD against the USD by 10% would increase/ decrease profit or loss by \$2,778.

Based on the above net exposures as at September 30, 2016, and assuming that all other variables remain constant, a 10% appreciation or depreciation of the CAD against the DKK by 10% would increase/ decrease profit or loss by \$5,201.

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices other than those arising from interest rate risk, financial market risk, or currency risk. The Company is not exposed to significant other price risk.
